### **IN SUPPORT OF SAFETY AND HEALTH EDUCATION, SITEHAWK MAKES DONATION TO AMERICAN SOCIETY OF SAFETY ENGINEERS' FOUNDATION**

**DES PLAINES, IL** (September 21, 2010) – To support safety, health and environmental education and research, SiteHawk, a leader in the chemical information management field, has agreed to sponsor the SiteHawk Safety Scholarship through the American Society of Safety Engineers' Foundation (ASSEF). The first scholarship will be awarded in Spring of 2011.

The SiteHawk Safety Scholarship will be available annually after 2011. The SiteHawk Safety Scholarship is intended for full-time undergraduate safety, health and environmental (SH&E) students.

Since 1993, SiteHawk has combined industry and regulatory expertise with technology best practices to deliver innovative, web-based chemical management solutions. Organizations in virtually every industry utilize SiteHawk solutions to manage their hazard communication programs, meet regulatory and environmental compliance initiatives, manage chemical inventories and chemical data, publish material safety data sheets, and keep workers safe throughout the organization. The complete SiteHawk solution portfolio includes software and services for MSDS management, MSDS authoring, chemical inventory management, and environmental regulatory compliance. For more information about SiteHawk and the products and services offered by the company, please visit [www.sitehawk.com](http://www.sitehawk.com).

The ASSEF, established by and in partnership with the American Society of Safety Engineers (ASSE), generates funding and provides resources for scholarship, applied research, academic accreditation and related academic initiative in order to advance the safety, health and environmental profession. For more information on the Foundation and its programs, please visit [www.asse.org/foundation](http://www.asse.org/foundation).

Founded in 1911, the Des Plaines, IL-based ASSE is the oldest professional safety organization and is committed to protecting people, property and the environment. Its more than 32,000 occupational safety, health and environmental professional members lead, manage, supervise, research and consult on safety, health, transportation and environmental issues in all industries, government, labor, health care and education. For more information please go to [www.asse.org](http://www.asse.org).
