

SiteHawk COMMUNICATOR | Professional

A POWERFUL SDS MANAGEMENT PLATFORM FOR LIGHTNING-FAST INSIGHT INTO YOUR CHEMICAL DATA

SiteHawk Communicator is an innovative, robust SDS management system that simplifies compliance and delivers insight to your chemical data. SiteHawk Communicator delivers tools to

- Provide quick access to SDSs with robust search features and an SDS mobile app
- Deliver visibility to materials within chemical areas, utilize configurable material approval workflows and incorporate real-time chemical inventory tracking.
- Maintain regulatory compliance by engaging pre-populated labeling features and over 225 regulatory lists with robust reporting capabilities.
- Access the latest SDS data with automated SDS Verification and Update Services.
- Harness data for reporting and product stewardship initiatives.

SiteHawk Communicator provides an SaaS (Software as a Service) solution with high-level tracking and reporting functionalities that enable administrators to manage global chemical data within a single system.

The result is consistent, contextualized and centralized data that is immediately accessible to anyone in your organization. With SiteHawk Communicator, you can understand your data to maintain compliance, reduce risk and improve the bottom line.

"By anticipating your regulatory challenges & proactively developing SDS solutions, we stay a step ahead of our competitors - which helps you stay a step ahead of yours."

**WE KNOW CHEMICAL DATA.
LET US SHOW YOU HOW TO LEVERAGE YOURS.**
